

Here is Our Unbeatable Guarantee That No Other Gutter Company Dares to Offer:

We GUARANTEE that any gutter that we install on your home or business will not be torn off or blow off or knocked off by any act of nature for 15 years after the date installation. Our GUARANTEE covers the gutters from being torn off or blown off by hurricanes, tornadoes, floods, torrential rain, or even lightning strikes, or we will replace that piece of gutter for free. We can offer this GUARANTEE because we are totally convinced that we offer you by far the strongest gutters, the strongest gutter hangers, and the strongest gutter screws in this industry, and our gutters are hung by trained, experienced installers, using state of the art tools and equipment, following time-tested installation techniques and procedures.

We repeat: no other company in this industry offers this GUARANTEE!

These simple caveats apply:

- obviously, you must allow us to install the gutter and its down pipe(s) properly
- the gutters must be kept reasonably free of significant build ups of leaf debris, shingle grit and other materials inside the gutter that make the gutter weigh much more than it ought to
- the down pipe(s) attached to that gutter must be kept free flowing, so that the gutter drains out without overflowing to the front or to the rear and so that no standing water accumulates inside the gutter
- you need to report your claim to us under this GUARANTEE within 5 days of whatever natural occurrence has caused the gutter to fall off or be knocked off of the structure
- the fascia that the gutter attaches to must be sound to begin with, and kept that way, and not rotted or allowed to become soft or rotten
- any repairs within the 10 year period that may be needed to the fascia, soffits, and the gutters themselves must be carried out by us or our designated representatives
- the GUARANTEE period commences on the day the gutters are installed and runs for 10 years or however long you own this home, whichever period ends first

-naturally, this GUARANTEE excludes deliberate or manifest neglect or abuse of the gutter in question, as well as man-made accidents, omissions or errors that may damage or weaken the gutter run in question. Vandalism, equipment such as ladders pulling the gutters off, people stepping on the gutters, etc., as well as acts of God such as trees or construction debris or materials hitting the gutter are not covered under this GUARANTEE.

Go on! Ask the low-ball bidders if they have the Moxie to put a GUARANTEE like this in writing! Listen to them make excuses if you care to, but if you want the real deal, then deal with us.

Call NC Gutter Guys Now at 919-342-6400 and get the highest-quality, longest-lasting gutter installation in the industry, at a price you can afford.
